Glossary	v
1. Executive Overview	1
2. Asset Management Issues and Strategies for Action	7
2.1 Strategic Asset Management is a Corporate Issue	7
2.2 Information is the Key to Efficient Planning	10
2.2.1 Information Collection	
2.2.2 Information Presentation and Asset Management Plans	
2.2.3 Information and Analysis for New and Renewal Capital Projects	
2.2.4 A Situation Check List	
2.3 Strategies for Action	15
2.3.1 Reducing Renewal and Maintenance Costs from Existing Assets	
More Maintenance	
CBD - Depreciation that Takes Maintenance into Account	
Rationalisation	
Life Extension	
2.3.2 Reducing Capital Costs of Future Assets	
The Right Asset for the Job	
Benefit Cost Analysis and Project Evaluation	
Customer Surveys	
Under-Utilisation as an Opportunity	
2.3.3 Achieving Greater Output with less Capital	
Resource Sharing	
Non Asset Solutions	
Changing the Asset Mix	
2.3.4 Increasing Revenues	
2.3.5 Cash and Debt Management	
2.3.6 Improving Strategic Planning - Zero Based Renewal	
2.4 Involving the Community	24
2.4.1 Rate Increases	
2.4.2 Community Consultation and Peer Review	
2.4.3 “Paying our Way” - Avoiding Intergenerational Inequity	
2.4.4 Integrating Infrastructure Asset Management Strategies	
2.4.5 Grants Commission and an Integrated Strategy	
2.5 Performing Well and Knowing It	28
2.6 Financial Management	30
3. Background, Terms of Reference and Approach	31
3.1 Objectives	31
3.1.1 Ageing Assets	

3.1.2 Planning and Funding	
3.1.3 Focus on Expenditure Projections	
3.1.4 Modelling Renewal Requirements	
3.1.5 Making Optimum Use of Limited Data	
3.2 Deliverables	33
3.3 Approach	34
3.4 Acknowledgements	34
4. Study Methodology	35
4.1 Data Collection	35
4.1.1 Survey Form	
4.1.2 Council Visits	
4.1.3 Follow Up with Councils	
4.1.4 CEO's Sign-off	
4.1.5 Other Data Sources Used	
4.2 Data Analysis	38
4.2.1 Definitions	
4.2.2 Assumptions	
4.2.3 Data Constraints	
4.2.4 Data Validation Issues	
4.2.5 Environmental Factors	
4.2.6 Summary	
5. The Renewal Challenge	43
5.1 The Information Base	43
5.1.1 Balance Sheet Data Not Enough	
5.1.2 Asset Planning Data	
5.1.3 Economic Life	
5.1.4 Backlog	
5.1.5 Project Assumptions	
5.1.6 Data Quality	
5.2 The Size of the Challenge	46
5.2.1 The Infrastructure Asset Base	
5.2.2 Annual Consumption of Infrastructure Assets	
5.2.3 The Key Infrastructure Questions	
5.3 Capital Expenditure on Infrastructure	48
5.3.1 Capital Expenditure Categories	
5.3.2 Capital Expenditure Allocation Accuracy	
5.3.3 Why Distinction Between Capital Categories is Essential for Developing Corporate Asset Management Strategies	

5.4	How Much Is the Existing Infrastructure Portfolio Costing?	52
5.4.1	Maintenance	
5.4.2	Renewal	
5.4.3	Average Annual Asset Consumption (AAAC)	
5.4.4	Current Level of Possible Renewal	
5.4.5	How much are Councils Paying for Existing Asset Portfolio?	
5.5	Sustainability Index for Individual Councils	55
5.5.1	How to Interpret the Sustainability Index	
5.5.2	How to Use the Sustainability Indices	
5.5.3	The Significance of the Sustainability Figures	
5.6	What Increase in Renewal Expenditure Will be Necessary to Cope with Rising Levels of Renewal	61
5.6.1	The Big Picture	
5.6.2	Individual Councils	
5.6.3	How many Councils - and which - are in short term renewal need?	
5.7	There is Time to Plan for Renewal	65
5.8	Management Effort - Making More Use of Maintenance	66
5.9	Infrastructure Asset Growth	68
5.10	Extrapolations from Figures in this Study	69
5.11	Quality of Data	70
5.12	Councils that May Face Renewal Difficulties	71
5.12.1	Reasons for Renewal Difficulties	
5.12.2	Councils Projected to Require an Increase in Total Capital Funding of More Than 10%	
5.12.3	Checking the Credibility of the Extreme Forecasts	
6.	Financial and Management Reporting	78
6.1	Asset Valuation	78
6.1.1	Role of Asset Valuation	
6.1.2	Variations in Valuation	
6.1.3	Keeping Valuations Current	
6.1.4	Overcoming Shortcomings in Asset Valuations	
6.2	Why Councils Have Been Slow to Capitalise on Information	81
6.3	Asset Accounting	83
6.3.1	Traditional Accounting Not Designed for Infrastructure Assets	
6.4	Lack of Integration Across Functional Silos	85

6.5	Emphasis on Technical Issues of Supply Not Matched by an Equal Emphasis on Demand and Outcome Measurement	85
6.6	Current Asset Management Practice	86
6.7	Service Levels/Standards and Links with Management Plans	86
	6.7.1 Service Levels Linked with Asset Lives	
	6.7.2 Service Strategy	
6.8	Demand Management	87
6.9	Life Cycle Asset Management	87
7.	Issues and Constraints for Local Government Revenue	89
7.1	Current Revenues	89
	7.1.1 Restricted Tax Base	
	7.1.2 Other Revenues	
	7.1.3 Rating Effort and Capacity	
7.2	Potential Revenue Sources	92
	7.2.1 Rates versus User Charges	
	7.2.2 Grant Revenues	
7.3	Cash Management Issues	93
7.4	Private Sector Involvement	94
8.	Issues and Constraints for Local Government Expenditure	95
8.1	Non Asset Expenditures	95
	8.1.1 Scope of Expenditures	
	8.1.2 Discretionary and Non-Discretionary Expenditures	
8.2	Reducing Expenditure Constraints	96
	8.2.1 Resource Sharing/Joint Use of Facilities	
	8.2.2 Adoption of Improved or New Technology	
Appendix 1	Steering Committee Members and Brief	
Appendix 2	Reference Groups and Pilot Councils	
Appendix 3	Survey Forms	
Appendix 4	Completion Instructions for Survey Forms	
Appendix 5	Site Visit Check list	
Appendix 6	Chief Executive Officer Sign-Off	
Appendix 7	Economic Lives – Charts and Tables	
Appendix 8	Some Thoughts on a Financial Management Framework
